

Meeting Minutes:

Date: May 10, 2024

Time: 11:30 am

Location: Jain University

Run By: Pasam Nutan (22BTRAD028)

Objective:

Thorough exploration of the 'EXPLAIN' command in SQL and reinforcement of JOIN operations understanding.

Agenda:

Attain a comprehensive grasp of the 'EXPLAIN' command, focusing on key elements: ID, select_type, type.

Review and evaluate sample queries linked to the 'EXPLAIN' command to illustrate practical usage.

Investigate common attributes in 'EXPLAIN' output to enhance comprehension of query optimization.

Key Takeaways:

Acquired a thorough understanding of crucial attributes within the 'EXPLAIN' command, including ID, select_type, and type.

Examined and discussed sample queries to showcase practical implications of the 'EXPLAIN' command in SQL.

Explored prevalent attributes in the output, enriching insights into query optimization techniques.

Tasks:

Ensure complete mastery of the 'EXPLAIN' command in SQL by Monday.

Prioritize completion of all pending assignments by tomorrow to facilitate this objective.

If proficiency in the 'EXPLAIN' command is attained over the weekend, proceed to delve into subqueries in SQL.
