Location: Jain University

Hosted By: Pasam Nutan (22BTRAD028)
Title: Futurense Internship Day 9

Objective:
To streamline project management processes by organizing the GitHub repository in a day-wise manner and creating an Excel sheet to centralize project details, including solution links and task assignments.

Agenda:

GitHub Repository Organization
Excel Sheet Creation
Setting Deadlines and Communication Channels
Completion of Task 51
Key Points:

Restructuring the GitHub repository into a day-wise format and creating a centralized Excel sheet for project details will improve organization and accessibility.
Assignments have been delegated, deadlines set, and communication channels established to ensure efficient implementation and progress tracking.
