Run By: Pasam Nutan
Title: Futurense Internship Day 7

Objective:
Engage in discussions to address challenges encountered during previous assignments and introduce fundamental concepts of database relationships.

Agenda:

Reviewing Challenges with Day 6 Assignment
Introduction to Database Relationships
Creating Meeting Minutes for Days 5, 6, and 7
Learning ER Diagram HR Database
Key Takeaways:

Identified and discussed challenges encountered during the Day 6 assignment, fostering a deeper understanding of the material.
Participated in the discussion surrounding the second ER diagram, contributing insights and gaining valuable perspectives from peers.
Introduced to fundamental database relationships like one-to-many, primary key, foreign key, and many-to-one, enhancing understanding of database structure and design.
Trained interns in effectively documenting meeting discussions by creating minutes, reinforcing the importance of clear communication and documentation.
Resource Links and Materials:

Discussed and addressed challenges faced while completing the Day 6 assignment.
Gained knowledge of ER Diagram HR Database.
Completed the assigned task of creating meeting minutes for Days 5, 6, and today's meeting to solidify understanding of documenting discussions and key points.
